UNPARALLELED INNOVATION™

PRODUCT CATALOG

ABOUT OVATION MEDICAL

OVATION MEDICAL IS MORE THAN JUST A MEDICAL SUPPLY COMPANY

We are a team of innovative thinkers and problem solvers dedicated to re-imagining how medical products can enhance the day-to-day lives of patients. Established in 2009, Ovation's founders have been at the forefront of medical product design, continually modernizing our offerings and challenging the status quo.

OUR STORY

Our journey began in 1982 when Jeff Haines took the reins of his father's orthopedic business. Initially, our product line was limited to basic cast and post-op shoes. However, we saw a world of possibility and began an expansion that has led to the creation of over 80 patented products.

In 1986, under the leadership of Tracy Grim, we established our Research and Development department. We had a clear vision: by creating superior products and driving better patient outcomes, we could carve out a unique space for ourselves in the market.

OUR COMMITMENT

While the assets of the original company were sold in 2005, the founder's innovative spirit was undeterred. In 2009, Ovation Medical was born, carrying forward the legacy of innovation and commitment to quality.

Over the past 14 years, Ovation has invested heavily in R&D, resulting in an extensive and innovative product line that's protected by multiple patents. With industry-leading manufacturing and sourcing capabilities, we have consistently been at the cutting edge of our field. Our mission has always been to provide value, foster lasting customer relationships, and drive superior patient care.

GEN 2[®] WALKING BOOT

Brilliantly simple pneumatic pump system.

Sure-Grip provides stable resting surface to elevate the injured limb.

Edgeless sole naturally adapts to your patient's individual gait pattern.

THE WORLD'S MOST ADVANCED WALKER

Ovation's patented Gen 2[®] Walking Boot has been validated as the most advanced double upright walker on the market by healthcare professionals worldwide. Designed with the patient in mind, our Gen 2[®] eliminates all of the issues associated with old style walking boots. Lightyears ahead of its competition, the Gen 2[®] is the best option for your patients.

PDAC APPROVED: L4360/L4361 & L4386/L4387

KEY FEATURES

- Incredibly light weight and low profile.
- Intuitive Sole allows patients to track naturally with their own gait pattern.
- Shock-Pod feature results in 50% less energy being transferred to the injured limb upon each heel strike.
- Sure-Grip resting surface prevents the limb from slipping when elevated on a smooth surface.
- Sculpted frame accommodates a wide variety of patient anatomies.
- Easy single push-button release system.

- Grade 2 and 3 sprains-stable fractures
- Post-operative use
- Trauma and rehab

COMMON RIGID EDGED SOLE

INTUITIVE SELF-TRACKING SOLE

NU-FORM™ ANKLE BRACE

EXCEPTIONAL COMFORT, ENHANCED STABILITY

Our patented Nu-Form™ Ankle Brace combines the best features of a classic lace-up figure-8 with the support of an ankle stirrup into a low-profile, lightweight, and breathable solution. Our Fusion-Form manufacturing process allows us to provide superior support, compression, and comfort that would otherwise not be possible using the conventional cut and sew method.

PDAC APPROVED: L1902

KEY FEATURES

- Unique design that blends the support of a stirrup with the comfort and compressive fit of a lace-up.
- Low-profile design fits easily in all shoe categories.
- Multi-layer frame provides superior rotational protection at the mid-foot and inversion/eversion control.
- Even compression manages daily swelling patterns.
- 3D spacer fabric allows heat and moisture to escape.

CLINICAL APPLICATIONS

- Acute ankle sprains
- Post-operative support
- Ankle injury rehabilitation
- Chronic ankle instability
- Prophylactic use

Semi-rigid frame mimics the support of a stirrup.

Ultra breathable fabric is comfortable for all day wear.

Grey frame provides superior control of the mid-foot.

**MORE COMFORTABLE
THAN A STIRRUP**

**MORE SUPPORT THAN
A LACE-UP**

LACE-UP ANKLE BRACE

PDAC APPROVED: L1902

KEY FEATURES

- Durable ballistic nylon construction ensures long-lasting use.
- Even compression aids in reducing swelling and promotes healing.
- Figure-8 straps offer precise inversion/eversion control.
- Tibia strap provides additional compression and support.
- Conveniently fits into a shoe for easy and convenient wear.

CLINICAL APPLICATIONS

- Acute ankle sprains
- Post-operative support
- Ankle injury rehabilitation
- Chronic ankle instability
- Prophylactic use

STEP-FREE ANKLE STABILIZER

PDAC APPROVED: L1902

KEY FEATURES

- Provides a massage-like compression with each step, offering ongoing relief from plantar fasciitis and heel pain.
- Hook and loop closure ensures simple clinical application and an adjustable fit for all-day comfort.
- Specifically designed to comfortably fit a wide range of individuals.
- Superior results when used in combination with our Hybrid Night Splint.

CLINICAL APPLICATIONS

- Plantar fasciitis
- Achilles tendonitis
- Heel pain
- Arch pain
- Posterior tibial tendonitis

FOAM ANKLE STIRRUPS

L-CODE: L4350

KEY FEATURES

- Bilateral shells for rigid support, allowing controlled dorsal and plantar flexion while managing inversion/eversion.
- Breathable low-profile liners and slim design ensure a comfortable fit in shoes.
- Convenient hook and loop closures for quick and secure clinical application.

CLINICAL APPLICATIONS

- Acute ankle sprains
- Post-operative support
- Ankle injury rehabilitation
- Chronic ankle instability
- Prophylactic use

AVAILABLE IN BLACK

HYBRID NIGHT SPLINT

Unique stretch indicator window lets users track their progress.

CLINICAL APPLICATIONS

- Plantar Fasciitis
- Achilles Tendonitis
- Heel Pain
- Drop Foot
- Post-Static Pain

THE BEST OF BOTH WORLDS

Traditionally, orthopedic bracing companies have provided only two night splint options for treating plantar fasciitis and heel pain. These offerings have led to frustrated doctors, non-compliant patients, and huge gaps in recovery outcomes. Ovation's patented Hybrid Night Splint offers more comfort than a posterior splint and better functionality than a dorsal, making it the best of both worlds.

PDAC APPROVED: L4397

KEY FEATURES

- Allows patients with severe heel pain to start at less than 90-degrees.
- Articulating hinge lets patients adjust the level of stretch over time.
- Holds foot securely in place without giving up comfort or mobility.
- Position (stretch) indicator window lets patients participate in their own rehab process.
- Footbed is over 40% wider than a dorsal splint, preventing toe binding.

UNIQUE ARTICULATING HINGE

Experience unparalleled customization and comfort with our unique articulating hinge design.

105°

90°

75°

ACCESSORY STRAP

The Hybrid Night Splint Accessory Strap can be used to provide a more secure fit by wrapping the strap across the front of your foot and behind the heel, or by wrapping the strap across the top of your foot and under the arch. The Accessory Strap can also be used as an extension to the top calf strap.

PART NUMBER	SIZE	MEN'S SHOE	WOMEN'S SHOE
30014	Small to Medium	5 - 9	6 - 10
30016	Large to X-Large	9.5 - 14	10.5 - 15

EFFECTIVE TREATMENT OF PLANTAR FASCIITIS AND HEEL PAIN | SUPERIOR COMFORT
THE BEST OF BOTH WORLDS

MORE FUNCTIONAL THAN A
DORSAL, MORE COMFORTABLE
THAN A POSTERIOR

POSTERIOR NIGHT SPLINT

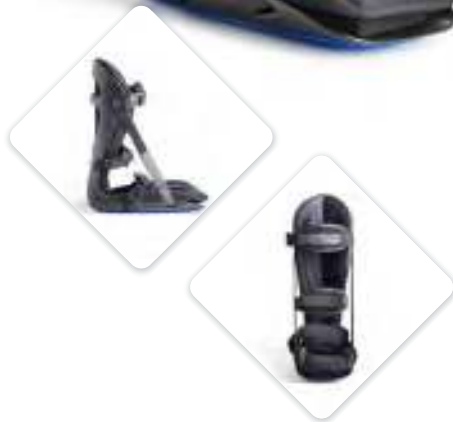

PDAC APPROVED: L4397

KEY FEATURES

- Bilateral straps easily adjust flexion, providing a comfortable and gradual stretch of the Plantar Fascia and Achilles Tendon.
- Dorsi-flexion can be adjusted off of 90°, allowing for a customized range of motion.
- Soft lined interior is breathable, comfortable, and washable, ensuring all-night comfort and hygiene.
- Straps are padded for comfort across the dorsum of the ankle, reducing potential discomfort.
- Easy-release buckles are simple to use, making the splint easy to put on and take off.

CLINICAL APPLICATIONS

- Plantar fasciitis
- Achilles tendonitis
- Drop foot
- Heel pain
- Post-static pain

PART NUMBER	SIZE	MEN'S SHOE SIZE	WOMEN'S SHOE SIZE
31003	Small	Up to 7	Up to 7.5
31005	Medium	7.5 - 10	8 - 10.5
31007	Large	10.5+	11+

DORSAL NIGHT SPLINT

PDAC APPROVED: L4398

KEY FEATURES

- Padded shell holds the foot at a 90-degree angle, providing optimal support and promoting proper healing.
- Lightweight, low-profile dorsal design allows for easy application and improved compliance.

CLINICAL APPLICATIONS

- Plantar fasciitis
- Achilles tendonitis
- Drop foot
- Heel pain
- Post-static pain

PART NUMBER	SIZE	MEN'S SHOE SIZE	WOMEN'S SHOE SIZE
30004	Small to Medium	5 - 9	6 - 10

NU-FORM™ UNIVERSAL BACK BRACE

KEY FEATURES

- Includes a customizable/moldable anterior panel.
- Coverage from L1-L5 for the L0627 and S1-T9 vertebra for the L0631/L0637.
- Completely breathable over the spinous process.
- Pressure relief zone automatically adjusts to provide relief at surgical sites.
- Extremely thin and low-profile, fits comfortably under clothing.
- Designed for both post-op and pain relief.
- Universally sized and easily adjustable.
- Rigid posterior panel automatically adjusts to unique patient anatomy.
- Hassle-free adjustment, allowing for quick clinical application.
- Incredibly durable, backed by a 5-year warranty.

CLINICAL APPLICATIONS

- Lumbar Spinal Post-Op Care
- Chronic Lower Back Pain
- Lumbar Sprains and Strains
- Spondylolisthesis
- Osteoporosis
- Fracture Management

NU-FORM™ THUMB SPICA

PDAC APPROVED: L3809

KEY FEATURES

- Standard size fits virtually all patients.
- Flex panel allows for custom off-the-shelf fit.
- Flagless design enables 100% capture of the thumb.
- Adjustable radial and volar stays.
- Non-porous material minimizes moisture and dirt retention.

CLINICAL APPLICATIONS

- Incomplete fractures
- Tendonitis
- Soft tissue injuries
- Post-cast support for healing
- Gamekeeper's thumb
- Dequervain's tendonitis
- Scaphoid injuries

ARM SLING WITH PADDED SHOULDER

L-CODE: **L3670**

KEY FEATURES

- Envelope style design securely cradles the arm, providing optimal support.
- Comfort pad on the shoulder strap enhances patient compliance by reducing pressure and discomfort.
- Easy to adjust with hook and loop straps, ensuring a secure and personalized fit.

PART NUMBER	SIZE	ARM LENGTH
58012	X-Small	9" - 11"
58013	Small	11" - 13"
58015	Medium	13" - 15"
58017	Large	15" - 17"
58018	X-Large	17" - 19"

SHOULDER ABDUCTION SLING

L-CODE: L3670

KEY FEATURES

- Provides shoulder abduction, promoting effective healing and recovery.
- The pillow portion rests comfortably on the waist to support the arm, alleviating strain.
- Easy to adjust with hook and loop straps, ensuring a secure and personalized fit.
- Made from breathable cotton for enhanced comfort and wearability, reducing the risk of overheating.

PART NUMBER	SIZE	ARM LENGTH
59013	Small	up to 12.5"
59015	Medium	12.5" - 15.5"
59017	Large	15.5" and up

SHOULDER IMMOBILIZER WITH FOAM STRAPS

L-CODE: L3670

KEY FEATURES

- Durable cotton sling ensures long-lasting use and optimal support.
- Hook and loop closure adjustments on all straps allow for a personalized fit.
- Fits both the right and left arm, adding to its versatility.
- The waist strap helps prevent shoulder rotation, promoting effective healing.
- Included shoulder pad offers additional comfort, enhancing patient compliance.

PART NUMBER	SIZE	ARM LENGTH
59022	X-Small	9" - 11"
59023	Small	11" - 13"
59025	Medium	13" - 15"
59027	Large	15" - 17"

CLAVICLE SUPPORT

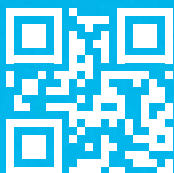

L-CODE: L3650

KEY FEATURES

- Figure-8 shoulder orthosis effectively supports the clavicle, facilitating recovery.
- Easily adjustable hook and loop closures allow for a personalized, secure fit.
- Padded straps enhance comfort, promoting increased patient compliance.

PART NUMBER	SIZE	CHEST CIR
57013	Small	24" - 30"
57015	Medium	30" - 36"
57017	Large	36" - 42"
