**New!**

Lateral Sole Wedge Insoles

Beveled to Limit Supination,
Relieve Foot & Knee Pains

**Valgus full-foot supports
ease common conditions**

A beveled design extends the full length of these 'slanted' Insoles, making them thicker on one edge, thinner on the other to help alleviate a variety of ailments, including those caused by excessive supination — the tendency to roll over the outside of the foot when walking or running. Try these before considering expensive shoe modifications!

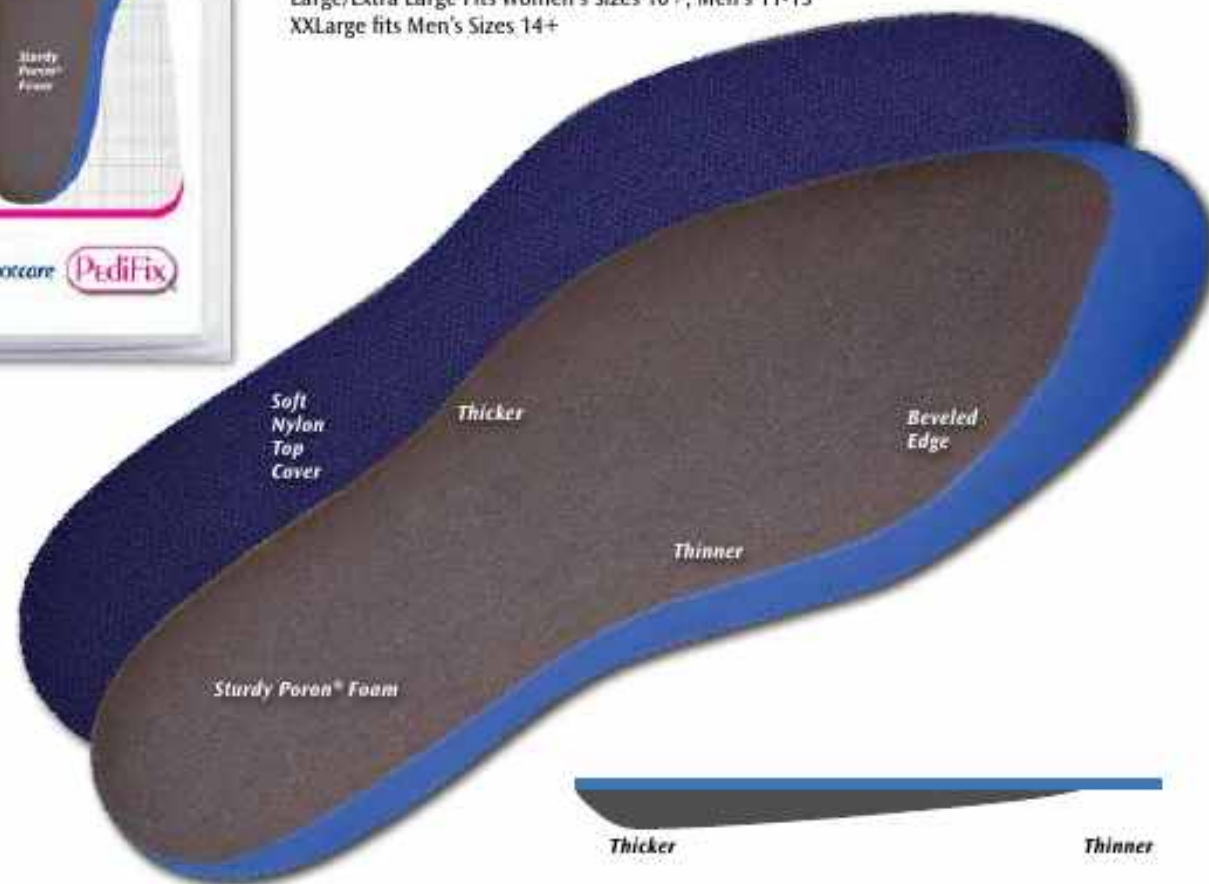

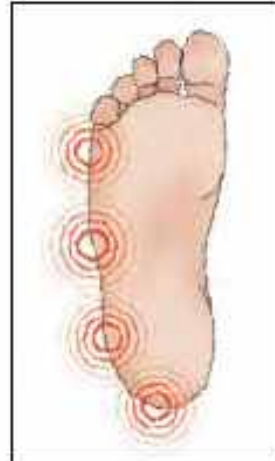

- Relieve Lateral Foot Pain
- Reduce Uneven Shoe Wear
- Ease Peroneal Tendon Strain
- Improve Ankle Stability
- Help Medial Knee Pain

Item #P230

Small/Medium Fits Women's Shoe Sizes 5-9, Men's Sizes 6-10
Large/Extra Large Fits Women's Sizes 10+, Men's 11-13
XXLarge fits Men's Sizes 14+

1/4" Valgus Post

**New!**

XTC Carbon Graphite Turf Toe Relief Insole

Limits Big Toe Motion
To Relieve Pain

Keeps People Active With
Less Discomfort

**Stiffen shoes so they
don't bend where it hurts**

These are the shoe inserts Podiatrists, Orthopedists, Athletic Trainers and other experts recommend for big toe joint pain. In addition to 'Turf Toe', they also help relieve other conditions, including...

- Hallux Limitus
- Hallux Rigidus
- Toe Arthritis
- Sesamoid Injury
- Post-Surgical Splinting

Small: 8"

Large: 10 1/4"

Relieve pain from
hyperextension injuries

Top-Sellers in Counter-Top & Shelf Displays

Impulse and repeat purchase favorites!

Why Tea Tree Oil?

Tea Tree Oil has been used for over 1,000 years as a healing treatment, particularly for skin conditions. It helps wash fungus, bacteria and odor from skin surfaces and reduces itching, inflammation and irritation. Because of its long history as an anti-bacterial, anti-microbial and antiseptic, we include it in many of our topical dermatology products. It works!

Staff & Customer Education

Become familiar with these basic Ailment terms, common causes of problems, and the PediFix products designed specifically to relieve them. Be quick to suggest professional medical care to customers with foot problems that seem serious, especially among people with diabetes.

Find more information at www.pedifix.com

Arch Pain/Flat Feet: A flattened foot or 'fallen' arch can occur genetically or due to excess pronation, aging and weakened or injured ligaments. Unsupportive footwear can also contribute to foot discomfort.

Solutions: Supportive shoes, insoles, extra arch support: Arch Cradles® (#P182), Arch Support Bandage (#P60), Arch Support Bandage with Metatarsal Pad (#P602), Massage Work Insoles for Men (#P185), Gel-Step® Orthotics (#7000, #7050), Action Orthotics™ (#s P5610, P5620), Active Orthotics™ (#s P5300, P5350), Carbon Graphite Preforms® (#P4860), FELTastic® Arch Cushions (#P8536), ExtraArches™ (#P1140), LowShock Gel Heel Straights (#P5180).

Ball-of-Foot Pain: 'Metatarsalgia' describes irritation of the bones of the ball-of-foot, worsens with age, as the natural 'fat pad' that protects the feet grows thinner. Pain can be at a specific spot, under a metatarsal 'head' or more generalized.

Solutions: Supportive shoes, added arch support, insoles, ball-of-foot pads that cushion, protect and/or support to redistribute pressure. Pedi-Gel® Metatarsal Pads (#P8208), Arch Cradles® (#P182), Pedi-Gel® Callus Pads (#P8203), Pedi-Gel® Ball-of-Foot Pads (#P8201), Ball-of-Foot Cushion (#P88), FELTastic® Metatarsal Support Pads (#P86), Visco-Gel® Ball-of-Foot Protection Sleeve (#P1225), Visco-Gel® Ball-of-Foot Cushion (#P3004), Visco-Gel® Ball-of-Foot Wrap (#P1295), Arch Support Bandage with Met Pad (#P602), FELTastic® Metatarsal Cushions (#P8501/2), Contoured Metatarsal Cushions (#P8530), Sesamoid Relief Sleeve (#P6003), All Orthotics.

Big Toe Pain: Caused by Turf Toe injury, Hallux Limitus, Rigidus, Arthritis (all involve degeneration of the 1st Metatarsal Phalangeal Joint), Sesamoid Injury, Post Bunion Surgery.

Solutions: Turf Toe Relief Insoles (#P4862), other shoe stiffening inserts, insoles and orthotics that limit, support, stabilize joint motion. Metatarsal and 'Dancer's Pads' help, too. (see Ball-of-Foot Pain). Choose less flexible footwear. Turf Toe Relief Insole (#P4862).

Bunions: A thickening, bony bump, often with inflammation of tissues at the base of the big toe joint that can form as a result of genetics, faulty foot biomechanics and pronation. Also made worse by poorly fitting shoes, including too narrow, pointy, or high-heeled. Sometimes the big toe remains straight, with just a bump at its base. In others, the big toe will become crooked, pointing towards, rubbing, under or overlapping the 2nd toe.

Solutions: Wider, supportive, low heel height footwear that reduces pressure and friction on the big toe joint, cushions that protect the bunion area or separate toes that rub. Visco-Gel® Toe Spacers (#P28), Visco-Gel® 'Stay-Put' Toe Spacer® (#P27), Visco-Gel® ToeBuddy® (#P31), Visco-Gel® Bunion Guard (#P46-L), Visco-Gel® Dual-Action Bunion Fix (#P47), Visco-Gel® ToeBuddy® Bunion Guard (#P1038), Visco-Gel® Bunion Relief Sleeve (#P1303), Nighttime Bunion Regulator™ (#P6035), SoreSpot® Silicone Tape (#P3095).

Calluses: Hardened areas of skin on the bottoms and sides of feet that thicken to protect underlying bones from excess pressure or friction. Sometimes these form in specific spots, other times over a larger area of the forefoot or heel.

Solutions: Supportive, properly-fitted shoes, protective pads, cushions and supports. Moisturizing and exfoliation or debridement of hard, rough, thick skin. Visco-Gel® Silicone MoleSkin Protective Padding (#P805), FELTastic® Callus Protectors (#P16), Pedi-Gel® Callus Protectors (#P8203), Pedi-Gel® Metatarsal Support Pads (#P8208), Pedi-Gel® Comfort Gel Sheets (#P8205), Pedi-Quick® Dual-Action Foot File (#P3011), Pedi-Quick® Safety Corn & Callus Trimmer (#P3035), Callus Control Cream™ (#P3310), Tea Tree Ultimates® Soaking Crystals™ (#P3078), Deep-Healing Foot Cream™ (#P3069), Diabetic Defense® Daily Therapy Foot Moisturizer (#P3620), Heel-So-Smooth® Heel Sleeves (#P800), Gel Ultimates® Moisturizing Booties (#P802), Pedi-Patch™ (#P2105), Visco-Gel® Medicated Callus Removers (#P819), Cracks & Calluses Foot Repair Cream™ (#P3305), FELTastic® Metatarsal Cushions (#P8501), SoreSpot® Silicone Tape (#P3095).

Corns: Small, circular spots of thickened skin that form on or between toes to protect underlying bones from excess pressure and friction, frequently caused by too tight shoes or other foot conditions.

Solutions: Properly fitting, supportive shoes, protective pads & cushions, medicated removers, files and moisturizers. Visco-Gel® Toe Separators (#P31), Visco-Gel® Corn Protectors (#P81), Visco-Gel® Toe Tubes (#P338), Visco-Gel® Fabric-Covered Toe Tubes (#P1202), Visco-Gel® Little Toe Sleeves (#P12), Visco-Gel® Toe Protector (#P82), Visco-Gel® All Gel Toe Cap (#P80), '4 in 1' Toe Cushions (#P83), Nylon Covered Toe Cap (#P34), 3-Layer Toe Separators™ (#P280), Tubular Foam Toe Bandages™ (#P337), Pedi-Quick® OneStep Corn Removers (#P3063), Pedi-Quick® Dual-Action Foot File (#P3011), 2-Sided Foot File (#P3020), Safety Corn & Callus Trimmer (#P3035), SoreSpot® Blister & Skin Protection Bandages (#P810), SoreSpot® Silicone Tape (#P3095).

Blisters: Similar to Corns & Calluses, blisters form as the body's natural shield to minimize further skin injury and damage. But unlike those, fluid flows to create a 'sac' to better protect lower layers of skin.

Solutions: See "Corns", "Calluses"

Crooked & 'Hammer' Toes: Flexible or rigidly crooked or bent under 'claw' toes cause irritation of toe tips and tops; rub, overlap or underlap adjacent toes to make walking uncomfortable. The condition is usually caused by an imbalance in the muscles, tendons and ligaments that normally hold the toe straight, made worse by genetics, and wearing shoes that are too short or narrow.

Solutions: Supportive, roomy shoes that accommodate toe deformity, and specifically designed pads, cushions, caps and separators that can help protect, straighten, realign and support toes. Podiatrist's Choice® Toe Straighteners (#P53/P57/P58), Visco-Gel® or Felt Hammer Toe Cushions (#P53/P54), Toe Trainers® (#P51), '4 in 1' Toe Cushions (#P83), Visco-Gel® Toe Separators (#P31), Toe Tubes (#P338), Fabric-Covered Toe Tubes (#P1202), Little Toe Sleeves (#P12), Toe Protector (#P82), All Gel Toe Cap (#P80), Pedi-Gel® Corn Cushions (#P8206), Nylon Covered Toe Cap (#P34), 3-Layer Toe Separators™ (#P280), Tubular Foam Toe Bandages™ (#P337), ToeSmag™ Adjustable Hammer Toe Wrap™ (#P8163), ToeCoach™ (#P2053), 5-ToeBuddy® (#P1114).

Foot Fungus: 'Tinea Pedis, or 'Athlete's Foot' is a highly contagious fungal infection of the skin, usually discovered between the toes, or on the soles of the feet. Left untreated, it can cause toenail infection (Onychomycosis) that is very difficult to treat. Fungus can cause irritation, itching, cracking, peeling and odor, often re-infecting feet through previously exposed shoes and socks.

Solutions: Wash and dry feet thoroughly, wear and change socks frequently, change shoes regularly so they dry. Add absorbent insoles to shoes, apply creams, powders and/or deodorants to feet and use foot soaks to clean and deodorize. Medicated products generally help control symptoms. FungaSoap® (#P3071/2), Clotrimazole® Advanced Antifungal Solution (#3490), Tea Tree Ultimates® Soaking Crystals™ (#P3078), ShoeZap® 15 Minute UV Shoe Sanitizer (#P3410), Tea Tree Ultimates® FootWipes (#P3370).

Foot Odor: Feet perspire significantly — up to 1 pint per day! Bacteria thrive in warm, dark, moist conditions found inside footwear. The combination can create organic compounds that can make shoes, socks and feet stink.

Solutions: Change shoes daily, wash and dry feet thoroughly, control excess perspiration, sanitize shoes, and use anti-odor cream, sprays or powders: FungaSoap® (#P3071/2), Clotrimazole® Advanced Antifungal Solution (#3490), Tea Tree Ultimates® Soaking Crystals™ (#P3078), ShoeZap® 15 Minute UV Shoe Sanitizer (#P3410), Tea Tree Ultimates® FootWipes (#P3370).

Heel Pain: Most often the result of unusual or excessive strain on the 'plantar fascia' ligament on the bottom of the foot where it connects individual metatarsal or toe bones to the heel.

Solutions: Even with supportive shoes, this can be a difficult condition to treat. In addition to stretching, massage and injection options, take action at the first sign of heel pain by using the proper arch supports, heel cushions and night splints: Arch Cradles® (#P182), EZ Mornings™ Heel Relief Stretching Splint (#P6040), Arch Support Bandage (#P60), Visco-Gel® Arch Wrap (#P1291), GelStep® Heel Cups (#5025, #5050, more), Peel-Away™ Lifts (#P6582), Heel Straights™ (#P316), New! Plantar Fasciitis Relief Sleeve (#P6023), New! Plantar Fascia Stretching Sock (#P6045), Action Orthotics™ (#P5610, P5620), Active Orthotics™ (#s P5300, P5350), Separate your store from the competition with a unique, superior footwear selection, #P4860, FELTastic® Arch Cushions (#P8536), ExtraArches™ (#P1140), LowShock Gel Heel Straights (#P5180), FELTastic® Heel Pad (#P8534).

Nail Fungus: The same fungal species that cause Athlete's Foot can also infect toenails. Known as 'Onychomycosis' this infection can cause yellow, brownish nail discoloration, thickening, brittle and crumbling nails, and odor.

Solutions: If caught early, topical anti-fungal liquids can help improve nail appearance, but once the infection reaches under the nail, these are less effective. Seek professional care — the sooner the better — the longer the fungus has to get established, the more difficult it is to treat. Take preventative measures to keep feet clean and dry, avoid infection. Just For Toenails Polish (#A905), FungaSoap® (#P3071/2), Clotrimazole® Advanced Antifungal Solution (#3490), Tea Tree Ultimates® Soaking Crystals™ (#P3078), ShoeZap® 15 Minute UV Shoe Sanitizer (#P3410), Professional Nail Cutter (#P3355).

Neuroma: A cluster of nerves in the ball of foot that become inflamed due to pressure, most often at the base of the third or fourth toes. Wearing shoes that squeeze feet into unnaturally narrow spaces, and high heels that increase pressure on delicate bones of the forefoot are additional causes.

Solutions: Spacious, supportive shoes with a roomier toe box, arch supports, ball-of-foot pads to support the forefoot and help redistribute weight: Arch Support Bandage with Met Pad (#P602), FELTastic® Metatarsal Pads (#P86), Pedi-Gel® Ball-of-Foot Pads (#P8201), Pedi-Gel® Metatarsal Pads (#P8208), Arch Cradles® (#P182), GelStep® Thin Dress Insole (#7029), Contoured Metatarsal Pads (#P8330).

Pump Bump & Achilles Strain: An irritation of the bottom of the calf/top of heel due to increased activity, friction and rubbing.

Solutions: Better fitting shoes, pads and specially-designed heel cushions that protect or reposition the heel to relieve pressure spots and strain: Pedi-Smart® Heel Hugs™ (#P68), Visco-Gel® Achilles Protection Sleeve (#P1400), Visco-Gel® Silicone MoleSkin Protective Padding (#P805), SoreSpot® Blister and Skin Protection Bandages (#P810), Peel Away™ Heel Lift (#P6582), New! Pedi-Patch™ (#P2105), SoreSpot® Silicone Tape (#P3095), FELTastic® Heel Pad (#P8534).

Supination: The tendency to roll over the outside of our shoes while we walk or run causes pain, uneven shoe wear, peroneal tendon strain, frequent ankle sprains and instability and knee pain.

Solutions: Lateral Sole Wedge Insoles (#P230), Heel Straights (#P316), LowShock™ Heel Straights (#P5180).

Tired, Achy Feet: Standing, walking or running on hard surfaces, poor footwear, faulty biomechanics and other, general causes of foot pain are common.

Solutions: Supportive shoes, arch supports, orthotics or insoles. Arch supports and revitalizing products: Lateral Sole Wedge Insoles (#P230), FungaSoap® (#P3071/2), Tea Tree Ultimates® Soaking Crystals™ (#P3078), Arch Cradles® (#P182), Action Orthotics™ (#P5610, P5620), Active Orthotics™ (#s P5300, P5350), Separate your store from the competition with a unique, superior footwear selection, #P4860, FELTastic® Arch Cushions (#P8536), ExtraArches™ (#P1140).

Warts: Round, colored, textured growths that appear most often on the bottoms of feet, caused by a skin virus. Generally harmless, but can become sensitive to pressure if left untreated.

Solutions: OTC or professional treatment with the help of pads and cushions that protect sensitive spots: FELTastic® Callus Pads (#P16), Pedi-Gel® Callus Pads (#P8203), FungaFiles® (#P3012), SoreSpot® Silicone Tape (#P3095).

Diabetes: Diabetes can cause...

A. neuropathy — a loss of sensation in the feet that makes it hard to notice corns, calluses, sores or injuries. **B.** dry, rough, hard, cracked skin that makes feet more prone to infection. **C.** slow and non-healing of otherwise insignificant conditions and injuries that can become 'ulcers'. Ulcers that don't heal can lead to serious health issues, even foot and leg amputations.

Solutions: Regular visits to the doctor for professional care, daily inspection and cleaning of your feet and lifestyle changes that minimize diabetic conditions (diet, stop smoking, exercise, etc.) can help prevent foot complications. These products help you care for diabetic feet: FungaSoap® (#P3071/2), Diabetic Defense® Daily Therapy Foot Wash (#P3076), Deep-Healing Foot Cream™ (#P3069), Diabetic Defense® Daily Therapy Foot Moisturizer (#P3620), Stretch Socks™ (#P760), Seamless™ Everyday Socks (#P795), Seamless™ Oversized Socks (#P798), ShoeZap® 15 Minute UV Shoe Sanitizer (#P3410), Tea Tree Ultimates® FootWipes (#P3370).

**SensitiveFeet™ Foot Protection Insoles**

*Doctor-Recommended for People with Persistent
Foot Pain, Pressure Points, Arthritis or Diabetes*

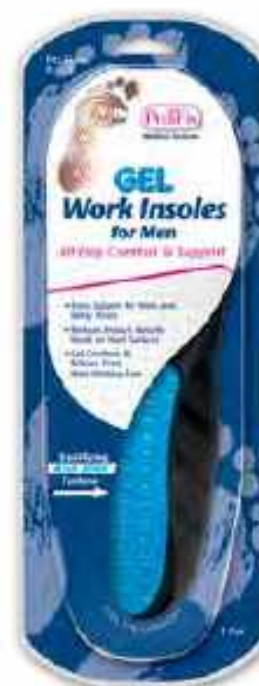

These specially-constructed insoles relieve pain on the bottoms of feet caused by a variety of conditions and ailments. The soft Plastazote® top-layer cushions sore spots, conforms to the wearer's feet and reduces friction to help accommodate, relieve and prevent painful calluses. The bottom layer of Poron® provides a durable, protective layer that absorbs pressure and impact shock. This combination of materials is used to produce costly custom orthotics for patients concerned with diabetic ulcers, and their avoidance, providing some of those same foot protection benefits, at a fraction of the cost. One, trim-to-fit size.

- Maximum Comfort for Diabetic and Arthritic Feet
- Reduce Friction to Help Prevent Calluses
- Absorb Shock and Pressure
- Two Long-Lasting Layers Compress and Rebound with Each Step!

**EZ Mornings™
Heel Relief Stretching Splint***Relieves Plantar Fasciitis Pain and Speeds Healing.*

'Plantar Fasciitis' is the medical term for pain that results from strain and microscopic tearing of the plantar fascia ligament on the bottom of the foot. One common symptom of this condition is sharp heel pain upon arising in the morning (because the ligament contracts during the night). Worn while resting or sleeping, this Splint stretches the fascia continuously to minimize morning pain and help speed healing. Adjustable stretch. Sizing is approximate. Small fits shoes sized 5-9, Large fits 9+.

1/pk	Item#
Small (fits up to Ladies' shoe sizes 9, Men's 8)	#P6040-S
Large (fits Ladies' shoe sizes 9 1/2+, Men's 8 1/2+)	#P6040-L

Stretches from midfoot, not
toes, for greater comfort and
patient compliance.

Heel-free is cooler
and more comfortable

**Pedi-Smart® Heel Hugs™***Prevent Slipping Heels & Blisters*

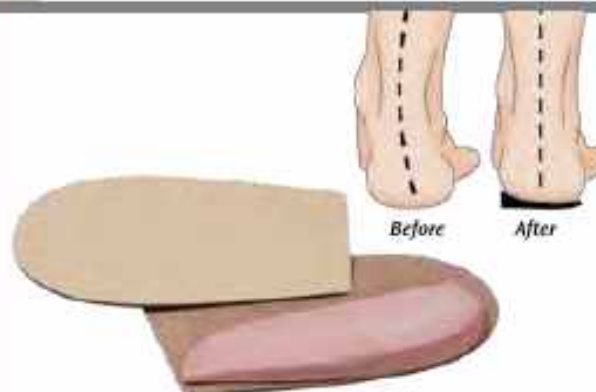

Instantly stop shoes from slipping off and rubbing against the back of sore heels. These soft foam cushions also absorb shock to soothe and protect. Self-adhesive backings allow easy positioning in women's or men's footwear. Trimmable. One size fits most.

1 pr/pk	Item#
	#P68

**Peel-Away™ Adjustable Heel Lift***Solve Leg-Length Discrepancies,
Ease Achilles' Pain*

Unique Lift elevates heel to balance differences in leg length that can cause hip, back and biomechanical problems. Also helps relieve heel spurs, Achilles' tendonitis and related conditions. Fits left or right foot.

1/pk	Item#
Small (fits ladies' 4-7)	#P6582-S

XLarge (fits men's 12+)	#P316-XL

**New!****LowShock™ Gel Heel Straights™***Varus/Valgus Heel Alignment, with Pedi-GEL® Shock Absorption*

Help improve foot biomechanics and reduce shock to feet, knees, hips and back with these simple 'wedges'. They tilt the calcaneus to limit pronation and excessive flattening of the arch to relieve pain and stress on the plantar fascia. Soft, durable, self-sticking, they're unnoticeable when placed under shoe linings and insoles.

1 pr/pk	Item#
Small (fits shoe sizes 4-7)	#P5180-S

PediFix
Medical Footcare

**FELTastic® Metatarsal Support Pads***Ease Ball-of-Foot Pain Instantly*

Soft, contoured, genuine wool felt pads adhere to the insides of shoes to cushion, protect and support metatarsals. Unlike flat pads, their unique orthopedic shape actually helps improve the position of foot structures to relieve the cause of forefoot problems, not just the symptoms, like calluses and pain — sometimes described as “like walking on a pebble”. Felt conforms to the wearer’s feet for customized relief. Small fits most shoe sizes 5-9. Medium fits most sizes 10+.

1 pr/pk	Item#

Gel Lining Inside

How does Visco-GEL® work?

Soothing gel absorbs pressure and friction to cushion and protect skin.
Mineral oil is released by the gel to soothe and moisturize skin.
Skin

Only Visco-GEL®...

- Cushions, protects, absorbs pressure, shock and shear forces better than other materials
- Releases medical-grade mineral oil, enriched with vitamin E, to soothe, soften and moisturize skin
- Conforms to prominences and foot contours
- Features our anatomically-designed products
- Guarantees its durability — will not flatten, deform or degrade with use
- Is hypo-allergenic, washable and reusable
- Is scientifically formulated for consistent softness, durability and color

Our Visco-GEL® products are among the few accepted by the American Podiatric Medical Association! Don't settle for cheap imitations sure to disappoint your customers.

15 Minute UV Shoe Sanitizer ShoeZap

Kills Fungus & Bacteria That Cause Infections & Odor

Helps Fight

- Toenail Fungus • Athlete's Foot
- Smelly Shoes • More!

The Problem — Shoes Are Contaminated

Warm, dark and damp, shoes are the perfect breeding ground for germs, including...

- | | |
|-----------|-----------------------|
| Fungus | T. rubrum |
| Bacteria | T. mentagrophytes |
| Viruses | P. aeruginosa |
| Yeasts | C. albicans |
| Molds | Staphylococcus aureus |
| Allergens | E. coli |
| | More |

Germ-filled shoes can be a source of foot and nail infections — and re-infection — even after thorough professional treatment and medical care.

If your customer's skin or toenails are infected, or were in the past, it's very likely their shoes are contaminated with one or more of these pathogens that can again re-infect their feet.

The Solution — ShoeZap®

- Sterilizes microbes that can attack, infect, and re-infect feet
- Disinfects & Deodorizes — kills bacteria that cause odors
- Keeps shoes microscopically-clean™, more hygienic and safer to wear

Works in ALL types of footwear!

Proven technology — improved!

ShoeZap® is the first and only UV Sanitizer with all these unique advantages...

- Faster — works in just 15 minutes
- Simpler — ONE size Sanitizer fits ALL shoe sizes & styles
- Reversible — to fully disinfect the heel area, too
- Rugged — engineered for years of frequent use

How ShoeZap® Works

ShoeZap® emits UVC germicidal light (253.7 nm wavelength) that sterilizes micro-organisms. This same technology has been used worldwide for decades to sanitize air in hospitals, kill germs in drinking water, disinfect food preparation surfaces and more.

Science & Research

Numerous studies demonstrate the sanitizing power of UVC light. Others prove its effectiveness in footwear. See research, studies, expert opinions and more on our website here: <http://www.pedifix.com/t-szstudies.aspx>

ShoeZap® — Instead of Toxic Shoe Sprays

Shoe sprays have limited, short-term effect on germs. Worse, the chemicals that might kill microbes can leave a toxic residue in footwear. Re-activated by perspiration, this creates an unhealthy 'foot bath' feet are then trapped in all day. ShoeZap® is 'green technology' — no smelly fumes, aerosol dispersants or lingering chemicals in shoes. And over time, ShoeZap® costs less, too.

2 Ways to Help Your Customers to Better Foot Health

1. "Treat Their Shoes While Your Treat Their Feet"

It works so fast, you can 'Zap' customer's footwear during their appointments and fittings. Give them back microscopically-clean™ shoes, demonstrate ShoeZap's® simplicity, and encourage purchase for more frequent, at-home use.

2. Recommend ShoeZap® purchase for at-home use

The more often shoes are 'zapped' the better. For customers fighting active skin or toenail infections, daily use is recommended. For others, every other day, weekly and seasonal use is suggested.

15 Minutes and 4 Easy Steps to Microscopically-Clean™ Shoes

1 Place Sanitizers in Shoes

2 Place Shoes & Sanitizers in UV-Proof Safety Bags

3 Power 'On'

4 Device Turns Off Automatically After 15-Minute Treatment

"It just doesn't make sense to treat customers for skin and nail infections, then watch them put on fungus-filled footwear" Leading Podiatrist

Frequently Asked Questions

Who should use ShoeZap®?

Everyone! Especially people susceptible to, wanting to prevent, or being treated for odor, fungus, skin, toenail, diabetic or post-op infections, those with compromised immunity, and anyone who wants to be proactive about their shoe cleanliness, foot health and hygiene.

How often should I use ShoeZap®?

The more often, the better. Daily or every-other-day use is recommended to patients who wear the same shoes every day, don't wear socks, perspire heavily or have an active skin or nail infection. Weekly, monthly and seasonal use is suggested for shoes worn less frequently.

How does ShoeZap® complement medical treatments for toenail fungus, Athlete's Foot and other infections?

Helping reduce the chance of recurrence and re-infection from contaminated shoes, ShoeZap® can enhance results from laser, oral and topical treatments.

Fight Fungus & Odor That Lives Inside Shoes

By killing the germs that cause common dermatology conditions, ShoeZap® improves the odds of successful fungal treatments, reduces odors and helps prevent infection and re-infection of skin and nails. Get ShoeZap® today and help your customers to better foot health

JustFor Toenails™ Enhanced Nail Polish

Make Problem Nails Look Beautiful!

Fun, Durable Colors Improve Nail Appearance

Healthy Nail Formula for Pretty Toes & Feet All Year

A renowned Podiatrist just couldn't take it any longer! Patients arrived in his office with unsightly fungal nails, signs of infection from poor salon hygiene, and chemical-filled polishes that only made nail problems worse. After years of frustration, he developed his own exclusive, healthy nail polishes, leading to improvements in nail appearance, reduced discoloration, normal thickness, less brittle, too! Now your customers can access this solution to a common, embarrassing problem. Free of Formaldehyde, Phthalate, Toluene, 7 other common, yet harmful ingredients. Specify color codes.

FELTastic®
Felt Foot Pads

Are all Felts the same?

No. Ours is FELTastic! Higher cotton and wool content feels better and lasts longer. The proper mix of Rayon adds durability. Compare our medical-grade FELTastic® Felt to others — feel the difference! Your customers will, too.

All these self-adhesive pads will stick to feet, in shoes, on, or under insoles to relieve pain.

New! FELTastic® Heel Pads
Protect & Lift to Relieve Pain

These absorb impact shock, raise the heel to relieve stress on the plantar fascia and Achilles, and compensate for leg-length discrepancies that cause imbalance in hips and back. 2 per pack. **#P8534**

New! FELTastic® Arch Pads
Instant Support Makes Shoes & Feet Feel Better

Relieve tired, achy and flat feet, limit pronation and add extra support to footwear lacking an arch raise. Help ease heel, arch and ball-of-foot pain by redistributing weight and pressure. One scissor-trimmable size fits most. 2 per pack. **#P8536**

New! FELTastic®
Flat Metatarsal Pads

Stick to Shoes or Feet for Immediate Comfort

Instant relief for ball-of-foot pain, calluses and sore spots. Cushion, protect and offload sensitive areas. One scissor-trimmable size fits most. 2 per pack.

#P8501 1/8" thickness

#P8502 1/4" thickness

New! FELTastic®
Contoured Metatarsal Pads
Shaped to Support & Protect

These ball-of-foot pads feature a rounded, 'skived' shape that supports the metatarsal arch and bones to improve foot structure and biomechanics. Relieve ball-of-foot discomfort, calluses, pressure and sore spots, even stubborn neuroma pain, and more. Apply to feet, in shoes, atop or under insoles. Sizing is approximate.

Small Fits Women's shoe sizes 4-8, Men's 5-9. Large fits Women's shoe sizes 9+, Men's 10+.

Small **#P8530-S**

Large **#P8530-L**

New! FELTastic® Oval Callus Pads
Surround & Protect Tender Areas

Oval shape helps offload calluses and sensitive spots to relieve pressure and pain. Frequently applied to ball-of-foot, also heels. Use 'as is' or cut in half and place on each side of a larger sore spot. One size. 8 per pack.

- More!

**Safe & Easy Release for Painless
Removal Without Skin Damage**

Scars

Warts

New SoreSpot® Silicone Tape is a ground-breaking advance in skin protection, with multiple benefits and uses.

First, this unique skin protectant minimizes shear and friction to relieve and prevent blisters, corns, calluses, irritations and 'hot spots', for instant pain relief anywhere on the body. It is helpful for young and old, sedentary and active customers, including runners and other athletes.

Second, silicone is the most clinically-proven solution for improving the appearance of scars, old or new. SoreSpot® Silicone Tape makes it easy and economical to benefit from its noticeably visible effects.

Third, silicone creates an occlusive barrier over skin that enhances the penetration of wart topicals for faster treatment results.

Fourth and perhaps most valuable, unlike paper and cloth tapes, silicone releases so gently that it prevents tears and damage to fragile skin upon removal, making it ideal for positioning bandages on elderly and at-risk patients, including those with PVD, diabetes, and other concerns.

Soft, flexible and conforming, SoreSpot® Silicone Tape wraps easily around toes, protects 'pump bumps' and bunions, too. The tape is waterproof, so it stays in place through showers and baths, even swimming. Hypo-allergenic and latex-free, it won't irritate skin or cause reactions.

So soothing, users report success also on burns, poison ivy, bug bites and other skin conditions, too.

SoreSpot® Silicone Tape is now available in 1- and 2-inch widths, 1.5- and 5-yard lengths, in single rolls or 12-roll 'clinic boxes'. Discover its many uses and benefits for yourself and your customers.

Active Orthotics™ 3/4-Length Arch Supports

Relieve, Prevent Foot & Heel Pain

Professionally-proven biomechanical shape supports and stabilizes feet to help end pain. Unique thermoplastic material provides moderate foot function control to limit heel eversion, support the arch and reduce excessive pronation. Offers flexible, comfortable support. Thin design fits in most footwear styles. Relieves forefoot, arch and heel discomfort, weak and 'flattened' arches, plantar fasciitis and other common foot conditions. Unlike ordinary 'trim to fit' insoles, Active Orthotics are available in every shoe size for Men and Women for a precise fit, proper positioning of the arch support and maximum comfort and effectiveness.

Pronation Control

Item #P5300

Women's Size/Men's Size: W5, W6, W7, W8/M6, W9/M7, W10/M8, W11/M9, W12/M10, W13/M11, M12, M13

**New!**

Active Orthotics™ Full-Length Supports

Relieve Heel, Arch & Foot Pain

Professionally-proven biomechanical shape supports and stabilizes feet to help end pain. Unique thermoplastic material provides moderate foot function control to limit heel eversion, support the arch and reduce excessive pronation. Offers flexible, comfortable support and dual-layer forefoot cushioning to protect metatarsals. Thin design fits in most footwear styles. Relieves forefoot, arch and heel discomfort, weak and 'flattened' arches, plantar fasciitis and other common foot conditions. Unlike ordinary 'trim to fit' insoles, Active Orthotics are available in every shoe size for Men and Women for a precise fit, proper positioning of the arch support and maximum comfort and effectiveness. These typically replace ordinary insoles in athletic footwear and other shoes with space to accommodate them. Unbreakable.

Deep heel cup

Full-length to replace shoe insoles

Item #P5350

Women's Size/Men's Size: W5, W6, W7, W8/M6, W9/M7, W10/M8, W11/M9, W12/M10, W13/M11, M12, M13

Plantar Fasciitis Relief

New!

Action Orthotics™ 3/4 and Full-Length Arch Supports

Relieve Heel, Arch & Foot Pain

Professionally-proven biomechanical shape supports and stabilizes feet to help end pain. Unique, compressed EVA foam material provides gentle foot function control to limit heel eversion, support the arch, reduce excessive pronation and provide flexible, comfortable support. Relieves forefoot, arch and heel discomfort, weak and 'flattened' arches, plantar fasciitis and other common foot conditions. 'ForefootSlant' design reduces pressure on bunions during gait to help prevent them from worsening. Affordable supports for all that feel great!

Advantage Orthotics™ 3/4-Length Carbon Graphite Arch Supports

Exclusive Material Technology!

Relieve, Prevent Foot & Heel Pain
Super Thin & Super Strong!

Advanced material technology previously only available to and from doctors. Professionally-proven biomechanical shape supports and stabilizes feet to help end pain. Exclusive Carbon Graphite construction provides significant foot function control — even among heavy wearers — to limit heel eversion, support the arch and reduce excessive pronation. Offers stiff, yet comfortable support that minimizes joint hypermobility that causes foot pain and dysfunction. Thin design fits in almost all footwear styles. Relieves forefoot, arch and heel discomfort, weak and 'flattened' arches, plantar fasciitis and other common foot conditions. Unlike ordinary 'trim to fit' insoles, Advantage Orthotics are available in every shoe size for Men and Women for a precise fit, proper positioning of the arch support and maximum comfort and effectiveness.

"The best new line I have added in a long time" — Doug E., Store Manager

These unique, *medical* footcare products are guaranteed to boost your sales, profits, and doctor referrals. They offer you, your customers and referring physicians the best, biggest and most advanced selection, distinguish your store from chains, and prove you are the footcare and healthcare supplies leader in your community.

Available exclusively to Podiatrists and Orthopedists for decades, PediFix products are dispensed and recommended by footcare experts more than any other brand. But instead of dispensing them, changes in healthcare increasingly require they refer patients to locally-owned retailers to purchase instead. *And that creates a new opportunity for you.*

PediFix is so popular in stores just like yours, that we offer a retail industry exclusive 'Timeless Guarantee' — if ever you aren't completely satisfied with their sales performance, we'll buy them back, at the full price you paid, at any time — next month, next year, next decade. You risk absolutely nothing when you test PediFix in your store.

Foot problems affect 4 out of 5 people, increasingly as we age. Update this 'core' category and see for yourself. Choose a display, planogram, or open stock assortment of our best sellers today. Footcare sells! PediFix guarantees it.

No Sore Feet!

PediFix Office Hours are:

Monday – Thursday, 8:30 am – 5:30 pm EST;

Friday, 8:30 am – 3:00 pm EST

Terms & Conditions:

Doing business with PediFix is easy! We'll make your purchase fast, friendly and convenient.

Order Processing: Most orders are processed and shipped the day they are received, or the next business day.

Shipping: Ground is the standard shipping method. Expedited orders—Next Day, 2-day, or 3-day shipping incur an extra charge. NOTE: Expedited orders must be received before 1:00 p.m. Eastern Time to ship the same day.

Shipping Charges: Shipping charges are added to your invoice. Orders over \$200 in value ship FREE to commercial addresses in the continental U.S.

Backorders: Are shipped to you automatically when available, and do not incur a separate shipping charge.

Free Shipping: Orders over \$200 in value ship FREE to commercial addresses in the continental U.S.

Minimum Order: Add \$5.00 fee for orders under \$50.00.

Payment Terms/Methods: For new accounts, we require that the first order be prepaid.

Prepay: By check or money order (payable to PediFix, Inc.), Visa, MasterCard, American Express or Discover.

Net 30: Invoices must be paid within 30 days, by check or money order, Visa, MasterCard, American Express or Discover.

International Orders: Must be prepaid. Shipping charges will apply regardless of the size of the order.

Billing: Invoices are included in your shipment, unless otherwise requested. Please pay within 30 days to avoid interest charges, collection and legal fees.

Returns: Please call for a Return Authorization Form. Please include this form with copies of all paperwork (invoices, packing list, other) and the reason for your return.

Shipping Claims: Must be made within 10 business days of delivery for errors, shortages, or damaged goods. Please photograph damaged cartons upon delivery.

Prices: Are subject to change without notice. **Pricing in this catalog is for Retailers and other re-sellers only. Please do NOT give this catalog or pricing information to your customers.** Instead, please call for Consumer Direct Ordering catalogs or refer them online to: www.pedifix.com where they can shop our full assortment.

MAP Policy: The minimum advertised price for any PediFix® product should be no less than 10% below the Suggested Retail Price, which is generally double the wholesale costs listed in this catalog. Repeat violators of this policy are subject to lose PediFix re-selling privileges.
